WATERROWER MAPLE ROWING MACHINE

The WaterRower Maple is handcrafted in solid American Maple and features the S4 Performance Monitor.

The WaterRower Maple is handcrafted in solid American premium maple wood. It stands apart as our lightest colored premium wood, combining an off-white coloration and faint touches of yellow with its unique blend of red and golden grains. These variations ensure that your rowing machine will be one of a kind.

Each rowing machine is coated with three passes of Danish Oil, providing a deep luster and warmth to your wood's finish.

Hardwood has been chosen as our most popular frame design due to its marvelous engineering properties; primary amongst these is the ability of wood to absorb sound and vibration, enriching the WaterRower's quiet and smooth operation..

Maple, like all woods used in WaterRower's contemporary rowing machine construction, is a premium hardwood with incredible longevity and dimensional stability. From professional baseball bats to American and Canadian furniture of the Colonial Period (1600-1775), American maple wood products have stood the test of time.

Harvested with Care: To ensure the preservation and protection of

our forests for generations to come, WaterRower works only with hardwood vendors that provide documentation of continued sustainable harvesting and net-plus forest replenishment.

"Of all the questions which can come before this nation, short of the actual preservation of its existence in a great war, there is none which compares in importance with the great central task of leaving this land even a better land for our descendants than it is for us." -President Theodore Roosevelt

INCLUDES S4 PERFORMANCE MONITOR

ALSO INCLUDES: Owners Manual, Syphon Pump, Water Purification Tablets, Allen Key
