WaterRower Bluetooth ComModule

The WaterRower ComModule allows you to have an interactive rowing experience by turning your S4 Performance Monitor+ into a Bluetooth® enabled device. Enjoy connecting to WaterRower and Third-Party developed apps via your Android or iOS devices.

Connected Experience Bundle

The Connected Experience Bundle includes:

- (1) Tablet Arm and Phone Holder
- (1) Tablet Holder (medium or large)
- (1) Bluetooth ComModule*

Phone attachment comes standard with the arm; Choose either a Medium or Large Tablet attachment. WaterRower will still store upright with the arm on attached.

Starter Kit

The Starter Kit with ANT+ Internal Heart Rate includes:

- Digital Heart Rate Chest Belt Transmitter (ANT+)
- Internal Digital Heart Rate Receiver
- WaterRower Mat
- Cleaning Kit*

Internal type requires removal of monitor fascia for installation on board.

SmartRow

Please note there is a 5-6 business day lead time for Smartrow

Available for all Series 3 and Series 4 dual rail wooden WaterRower models and the A1 mono rail. SmartRow wirelessly transmits workout data in real-time to the SmartRow app on your handheld device. Intelligent electronics inside SmartRow measure a range of extremely precise rowing workout data, enabling users to closely monitor their training output.

The SmartRow app is available on iOS and Android devices.

Phone & Tablet Arm

Designed for all wooden WaterRower machines*. Holds your phone or tablet. Phone attachment comes standard with the arm; Medium and Large Tablet attachments are sold separately for \$10 each. WaterRower will still store upright with the arm on attached. *Not compatible with the M1 & S1.

Medium Tablet Holder Insert

Designed to hold medium sized tablets for the tablet arm.

Large Tablet Holder Insert

Designed to hold large sized tablets for the tablet arm.

M1 Phone & Tablet Arm

Designed for all wooden WaterRower machines*. Holds your phone or tablet. Phone attachment comes standard with the arm; Medium and Large Tablet attachments are sold separately for \$10 each. WaterRower will still store upright with the arm on attached. *Not compatible with the wood S4 Dual Rail or A1 Mono Rail.

Laptop/Tablet Stand

A unique stand fitting your sleek laptop or tablet directly to your WaterRower for competing in online racing such as We-Row or Netathlon, or if you just want to kick back and watch a film or show while you row!

* Features a 10in cut out for tablet. The Laptop/Tablet stand is not compatible with the M1 & S1 models.

WaterRower Protective Cover

Keep your WaterRower dust free with a WaterRower cover. Covers are gray in color. Covers are not compatible with M1 series, A1 models and any WaterRower HiRise kit adapters. Zipper and velcro straps to close. The Protective Cover is made of a canvas-like material, which is neither water-proof or water-resistant.

WaterRower Mat

Provides traction for the most intense rowing sessions while protecting your floor from scuffs, scrapes, and sweat.

Dimensions: 90" x 36".

Dual-Density ErgPad™

Exclusive two layer laminated polymer pad
Soft one side, and firm the other side
20mm total thickness designed for the WaterRower Seat.

HiRise Adapter Kit

The WaterRower HiRise Adapter has been designed to raise the WaterRower 8" (200mm) in order to provide ease of entry and higher positioning when in use. The HiRise Adapter kit has a weight limit of 600 lbs. The WaterRower HiRise adapter comes as a retrofit kit and attaches easily to all Wood WaterRower Models.

Digital Heart Rate Monitoring Kit (Internal plug-in) ANT+

The WaterRower Digital Heart Rate Monitoring Kit, uses state of the art ANT+ wireless technology to accurately measure heart rate and display it on the WaterRower monitor.

The kit includes:

- (1) Digital Chest Belt ANT+ Transmitter
- (1) Internal Digital ANT+ Receiver

This kit is compatible with the Series 4 monitor and must be connected internally

Digital heart rate monitors have a transmission distance of 1.5 meters (as opposed to 1.0 meters for analog monitors, such as Polar). This allows the receiver to be placed internal, or adjacent to the monitor removing the need for unsightly extension cables. Further, the use of digital technology improves accuracy and reliability.

ANT+ digital wireless technology greatly improves the range and accuracy of heart rate information and is becoming widely adopted by industry leaders such as Cardio Sport, Garmin, Timex, etc.

Heart Rate Receiver selection is preference internal type requires removal of monitor fascia for installation on board.

WRP855 - USB F to Mini USB Adapter

USB F to Micro USB Adapter. This tablet adapter is to be used in conjunction with the SERIES 4 V.2 PC CABLE (USB)

WaterRower Home Training DVD

The WaterRower Home Training DVD is your virtual rowing guide with a wealth of insight and tutelage to maximize each workout, helping you to become a more efficient and productive rower. From starting out on your WaterRower, to proper technique drills and training, our in-depth tutorials will have you assimilating the form of a world-class oarsman.

Digital Heart Rate Monitoring Kit (External plug-in) ANT+

The WaterRower Digital Heart Rate Monitoring Kit, uses state of the art ANT+ wireless technology to accurately measure heart rate and display it on the WaterRower monitor.

The kit includes:

- (1) Digital Chest Belt ANT+ Transmitter
- (1) External Digital ANT+ Receiver

This kit is compatible with Series 4 monitors and plugs in externally.

Digital heart rate monitors have a transmission distance of 1.5 meters (as opposed to 1.0 meters for analog monitors, such as Polar). This allows the receiver to be placed internal, or adjacent to the monitor removing the need for unsightly extension cables. Further, the use of digital technology improves accuracy and reliability.

ANT+ digital wireless technology greatly improves the range and accuracy of heart rate information and is becoming widely adopted by industry leaders such as Cardio Sport, Garmin, Timex, etc.

Danish Oil

Used on the Classic (Walnut wood) and Oxbridge (Cherry wood) models.

Rechargeable WaterPump

The Rechargeable WaterPump allows you to easily add and removal water during set-up, transport and basic maintenance. Designed for residential use, simply charge with the provided USB cable, flip the on-switch and let the pump do the rest.

Oarsome Potential Rowing Grips

The Oarsome Potential Rowing Grips fit snugly over your Water Rower handle, providing the most effective solution for your sore hands and wrists. The ergonomically shaped grips prevent skin from bunching up – the root cause of blisters! Made from industry-trusted specially softened plastic, the Oarsome Rowing Grips always maintain their shape, providing you with ergonomic efficiency making your training on the Water Rower more effective. Oarsome Rowing Grips are latex free and are sealed with a specific antibacterial solution. The rowing grip can be used with the logo facing either way around – find your own perfect fit!

Serial to USB adapter

The Serial to USB Adapter allows interface between an older Series 4 V.1 monitor with an RS232 PC cable and a PC with a modern USB port. A RS-232 Serial Cable is required for this connection and not included with this item.

Series 4 V.2 PC Cable (USB)

The PC interface connection featured on the Series 4 V.2 monitor is a mini-USB type connector located on the back of the monitor. This interfaces with the USB ports on your PC. This USB cable is required for Series 4 V.2 monitor to PC connections.

Water Blue

A blue tinted dye for the water in your tank. Colors your water and enhances the look of your WaterRower.

Note:

- Blue Dye does not contain any cleaning agents and will not prevent algae growth.
- Do not use in conjunction with purification tablets.
- With this product, we recommend using distilled water, this is better suited for limiting the algae growth without impacting the performance of the Blue Dye.
