WRPH1100 - Wider 17" Handle Upgrade

Upgrade your handle to a wider 17" version. This version is even suitable for Olympian Xeno Mueller, and is featured on the Xeno Mueller Signature Series WaterRower.

*All A1 Home/Studio series models are equipped with standard 17" handles.

S3 to S4 Monitor Upgrade

Upgrade your Series 3 WaterRower Monitor to the latest Series 4 Monitor. The upgrade will come with all the necessary monitor and sensor assembly parts including; monitor board, monitor housing, spigot ring, monitor compression spring, R-clip, sensor assembly, sensor disk and monitor wiring.

HiRise Adapter Kit

The WaterRower HiRise Adapter has been designed to raise the WaterRower 8" (200mm) in order to provide ease of entry and higher positioning when in use. The HiRise Adapter kit has a weight limit of 600 lbs. The WaterRower HiRise adapter comes as a retrofit kit and attaches easily to all Wood WaterRower Models (see assembly instructions).

Footboard Upgrade - Wooden Models

This footboard upgrade offers increased durability for commercial applications. The footboard upgrade comes assembled with sturdy plastic heel cups that adjust via a dual pin system rather than the standard push-button.

A1 Home HiRise Adapter kit

The A1 HiRise Adapter has been designed to raise the A1 WaterRower Model approximately 7" (175 mm) in order to provide an elevated seat position when rowing while increasing the ease of entry and exit. The HiRise Adapter Kit comes with an simple to follow instructions and all necessary parts and tooling. The HiRise kit is available for A1 Home and A1 Studio models *Ash wood color variations may arise with the Home model.

A1 Studio HiRise Adapter kit

The A1 HiRise Adaptor has been designed to raise the A1 WaterRower Model approximately 7" (175 mm) in order to provide an elevated seat position when rowing while increasing the ease of entry and exit. The HiRise Adaptor Kit comes with an simple to follow instructions and all necessary parts and tooling. The HiRise kit is available for A1 Home and A1 Studio models *Ash wood color variations may arise with the Home model.

Footboard Upgrade - M1 Models

Upgrades your Existing WaterRower M1 footboard to incorporate the Floating Heel Rest Design. The new footboard design is similar to the A1 footboard where there is no push button. Simply unhook the heel rests from the pegs, slide them up or down and hook them back onto the pegs to set the desired height. This is now standard on ALL M1 models. Please note that there is a 3 week lead time for this item

XL Rail Option (Classic) - without machine purchase

The WaterRower, with standard rails, caters for an inside leg measurement of up to 37" (965 mm)

If you are particularly long in the leg, then there is an XL Rail option. The XL Rail Option increases the rail length by 4" (100mm), catering for an inside leg measurement of up to 41" (1065mm)

***This item is also available for purchase at discounted pricing when purchased with a wooden rowing machine in the same order as the rails are substituted for the standard rails.*

Note: The price of the Natural, Club and Classic XL rails (without machine purchase) can be found as a separate item, as the price does vary depending on the wood type.

****The WaterRower XL Rail option is available on wooden models only**

XL Rail Option (Oxbridge) - without Machine Purchase

The WaterRower, with standard rails, caters for an inside leg measurement of up to 37" (965 mm)

If you are particularly long in the leg, then there is an XL Rail option. The XL Rail Option increases the rail length by 4" (100mm), catering for an inside leg measurement of up to 41" (1065mm)

***This item is also available for purchase at discounted pricing when purchased with a wooden rowing machine in the same order as the rails are substituted for the standard rails.*

Note: The price of the Natural, Club and Classic XL rails (without machine purchase) can be found as a separate item, as the price does vary depending on the wood type.

****The WaterRower XL Rail option is available on wooden models only**

XL Rail Option (Natural or Club) - without machine purchase

The WaterRower, with standard rails, caters for an inside leg measurement of up to 37" (965 mm)

If you are particularly long in the leg, then there is an XL Rail option

The XL Rail Option increases the rail length by 4" (100mm), catering for an inside leg measurement of up to 41" (1065mm)

***This item is also available for purchase at discounted pricing when purchased with a wooden rowing machine in the same order as the rails are substituted for the standard*

rails. When purchased separately the XL Rails starting price is \$450.

Note: The price of the Oxbridge and Classic XL rails (without machine purchase) can be found as a separate item, as the price does vary depending on the wood type.

****The WaterRower XL Rail option is available on wooden models only**

****Please select wood type below**

S4 Monitor Upgrade - V.2

Upgrades Series 4 version 1 monitor from RS232 serial port to a USB port.

* A \$75 refund is available upon receipt of old monitor.

*Not compatible with the AI Home/Studio models.

* If converting from a S3 to S4 monitor, please see S3 to S4 Monitor Upgrade NOTE: USB cable is not included

XL Rail Option - with machine purchase

The WaterRower, with standard rails, caters for an inside leg measurement of up to 37" (965 mm)

If you are particularly long in the leg, then there is an XL Rail option

The XL Rail Option increases the rail length by 4" (100mm), catering for an inside leg measurement of up to 41" (1065mm)

This item is only available for purchase at this pricing when purchased with a wooden rowing machine in the same order as the rails are substituted for the standard rails. When purchased separately the XL Rails are priced at \$450

**The WaterRower XL Rail option is available on wooden models only

S4 Monitor Retrofit

S4 Monitor Retrofit Retrofit your existing WaterRower to include the latest monitor offering, the S4 monitor. The S4 monitor uses a different pickup method to previous monitors and hence requires the top deck containing the sensor to be modified. The upgrade kit can be retrofitted to most machines by the owner and requires limited mechanical knowledge. WaterRower will install the upgrade free of charge at its premises, however the customer will be charged return carriage.
